

Heath Fields Primary School

How we are planning to keep your child safe

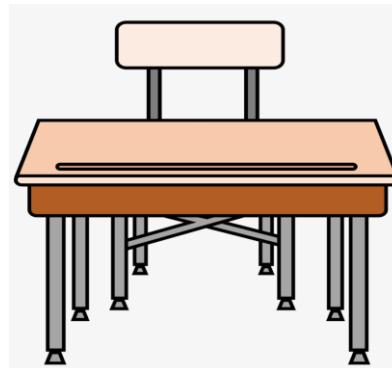

Children will be in their class group. The same teaching staff, teaching assistant and midday staff will be allocated to the group. The different groups (bubbles) will not mix.

Reduced movement around school – only in the bubble- obeying 2m rule where possible

If a child is ill they will be isolated in school and a parent **must** collect their child **immediately**. If necessary the whole class (bubble) will have to self isolate.

Years 2 to 6 class rooms will have desks facing the front with children sitting side by side and not in groups facing one another.

Each bubble to enter/exit their class room via the room's play ground door with allocated arrival and departure times. Break and lunch times to be staggered for each bubble.

Heath Fields Primary School

How we are planning to keep your child safe

Enhanced cleaning – regular cleaning of handles, touch points and toilets throughout the day. Class rooms deep cleaned each day.

Increased health & safety measures – cleaning products, hand sanitiser, tissues and PPE available.

Regular handwashing for all in school throughout the day.

Windows and doors to be open to ensure good flow of air and limit the touching of handles

Staggered/zoned play times. Play resources allocated to each bubble and cleaned daily.

An expectation that all children follow social distancing rules to keep everyone safe. Those who cannot or will not, will not be allowed to stay in school.
